Nguyen Thanh Phong

Web App Development (Java)

+84 325 961 720 ngthanhphong0817@gmail.com https://github.com/thPhonG-oss Thu Duc, Ho Chi Minh City

OBJECTIVE

Seeking a Backend Java Internship opportunity to work in a professional environment where I can develop my programming skills and gain a deeper understanding of building high-performance backend systems. With a strong passion for Java and a desire to learn from experienced engineers, I am committed to dedicating my best effort to completing assigned tasks and contributing to the company's projects.

EDUCATION

University of Science, HCM VNU 2022 - Present

Bachelor of Information Technology

- Specialized in Information System.

PROJECTS

IEAA Testing Center Mar 2025 - July 2025

Position: Backend Developer

Description: The application is designed to streamline the operations of a certification testing center, enabling center employees to register customers and candidates for exams (e.g., TOEIC, IELTS, IT Certification).

Team size: 5

Tech stack:

- Frontend: Thymleaf, Bootstrap CSS, Jquery.
- Backend & Database: Springboot, Spring Security, Spring Data JPA, SQL Server, Cloudinary.
- Development tools: Git, GitHub, Postman.

Github: https://github.com/thPhonG-oss/certificate-examination-center

Contributions:

- Developed dynamic web pages for users using Server-Side Rendering (SSR) with Thymeleaf, handling data binding and UI logic directly on the server.
- Designed and implemented core RESTful APIs for admin functionalities:
  Register testing exam.
  Uploading avatars of candidates using Cloudinary.
  Developed features to manage the entire lifecycle of registration forms, including status tracking (pending, approved, rejected) and updates.
- Participated in API testing and debugging using Postman to ensure reliability and correctness.
- Developed Authentication and Authorization using Spring Security and JWT.

SKILLS

Programming Languages	Basic HTML, CSS, Basic JavaScript, Java Core, SQL(MySQL, PostgreSQL).
Backend development	CRUD APIs, RESTful API, JWT authentication and authorization, JPA/Hibernate, Flyway migration data.
Development tools	Git, Github, Postman, DataGrip.
Soft skills	Problem Solving, Team Collaboration, Good English Communication
